MY STORY

" Life is like a game of chess "
Daze the Nomad

While the struggle for survival can cause pain and hardship, it can also breed strength and character. Such was the case with Daze, lyricist and songwriter in Hip Hop, R&B and Soul. Growing up in the 'system' and moving from foster homes to boarding schools and detention facilities,

Daze's musical talent flourished in the late 90's when he began to write songs as a way of releasing his emotional struggles related to his childhood experiences. In the summer of 2000, he stepped into the microphone booth for the first time with good friend and mentor 'D.O.' D.O. guided Daze through the ropes while he was working on the album 'U Got Miilk' with Miilk Bone (who released a single with Biggie Smalls). After learning structure and technique through practice, hard work and determination, Daze has never looked back.

Daze continues to create new music and perform live at open mic venues to perfect his stage presence. He has two upcoming singles, "Rollercoaster" and "On Fleek," and is set to perform at various venues, including yachts, lounges, and festivals in New York City.

David Adams

Owner of DAP (DaPerspective)

Through raw lyricism and powerful storytelling, Daze turns pain into purpose, proving that no matter where you come from, you can rise above and rewrite your story.

Tony Knucklez

Music Producer (Sony, Universal)

What can I say, this guys got the goods. Straight from the depths and nothing less, a lyrical genius in my books.

Kali Ann

Daze's music feels more intentional, the rawness of his music will bring out the good, the bad, the happy or sad.

EQ the Chemist

Daze is not just an artist to watch—he's an artist to listen to. His music carries weight, and his voice cuts through the industry's static with clarity and conviction.
